

# RECYCLE

**If you can't reduce or reuse your waste, how can we recycle?**

- Separate your waste and participate in the 3 bin kerbside collection system introduced by Fife Council, putting paper based materials in your blue bin and green garden waste in your brown bin.
- Locate your nearest Recycling Centre and Recycling Point for all your recyclable items, such as glass, textiles, vehicle batteries, TV & Hi-Fi's, white goods etc.
- Home compost your kitchen and garden waste to produce a rich organic matter that can fertilise your garden.
